ADVISORY ACTION

Continuation of 3. The proposed amendments AFTER FINAL, filed 20 April 2009, will not be entered because they raise new issues that would require further consideration and/or search. The proposed amendments AFTER FINAL would change the scope and breadth of the claims, because the intended use as an injectable pharmaceutical composition does require structural limitations of the pharmaceutical composition that change the scope and breadth of the claims as currently pending. This change the scope and breadth of the claims would require further consideration and/or search of the teachings of the prior art.

Continuation of 11. Applicant's Remarks, filed 20 April 2009, have been fully considered and found not to be persuasive. As detailed above, the proposed amendments AFTER FINAL, filed 20 April 2009, will not be entered. Applicant's Remarks with regard to the claims as currently pending reiterate the remarks as responded to in the Office Action mailed 20 Nov 2008.
